

- INDUSTRIAL MINI COMPUTER
- INDEPENDENT SSHD\*
- EASY SETUP
- SMALL AND DISCRETE FOOTPRINT
- COMMUNICATES WITH UP TO 48 WT6000 CONTROLS
- EASY BACKUP AND SAVE
- ONLINE MONITORING OF ALL WELD OPERATIONS
- AUTOMATIC DAILY BACKUP
- CERTIFY DATA FILES
- TRACK CHANGES AGAINST CERTIFIED FILES
- OFF-SITE DATA REVIEW AVAILABLE
- REMOTE REBOOT
- GRAPHICAL REPORTING OF WELD DATA
- TOOL EFFICIENCY MONITORING
- EXPULSION FREE REPORTING
- PROCESS STABILITY STATEMENTS

THE VIEW-R WILL SIMPLIFY YOUR DATA PROCUREMENT AND MANAGEMENT TO GIVE YOU EVIDENCE-BASED INSIGHTS THAT LEAD TO MANUFACTURING SUCCESS. THAT'S SMART MANUFACTURING DRIVEN BY COLLECTING, ORGANIZING AND ANALYZING DATA FROM A SINGLE RESOURCE.

# NO MORE SHARING. REALIZE THE POWER OF SECURE DEDICATION.

WTC's View-R is your devoted weld data concentrator that is free from the over-committed resources of the plant PC. This exclusivity makes it a powerful and highly reliable resource in critical data management.

## NEVER MISS A MILLISECOND.

Efficient manufacturing processes are reliant on quality data collection. The View-R with its 100% commitment to collection of welding data will be your resource for welding database information.

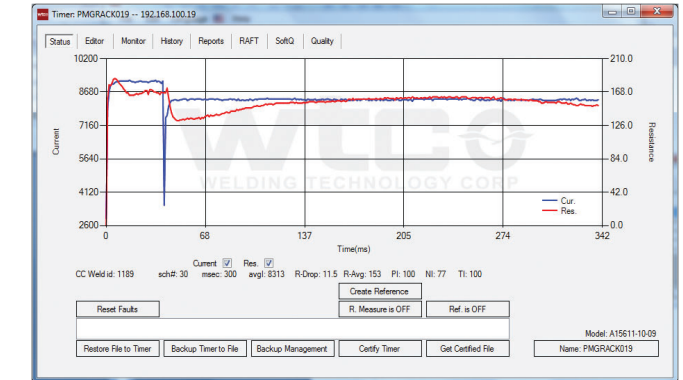

Status	View-R	View-R Version	Timer Address	Timer Name	Certification Status	Software Revision
ONLINE	192.168.100.210	3.0.0	192.168.100.19	PMGRACK019	CERTIFIED	A15611-10-09

### BE IN CONTROL

View-R Client Software functions like a dashboard showing you a list of weld controls connected to the View-R and their status. Accessing data from a specific weld control or editing its configuration is as simple as double-clicking the control from the list.

## NEVER MISS A MILLISECOND

### COLLECT ALL DATA

With the View-R at work there are never any blind zones and you have complete knowledge of every control wherever you are. When a weld control is accessed a separate window opens up to display a snapshot of the last weld with all essential information like current, resistance, schedule etc.

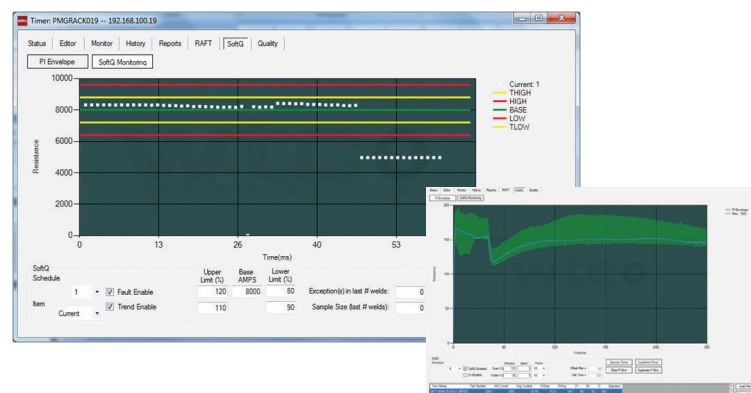

Schedule	Eruption-Free (%)	Eruption-Free Occurrences	Total Welds
1	82.61	38	46
2	81.82	27	33
3	80.91	30	37
4	84.85	28	33
5	93.94	31	33
6	96.97	32	33
7	89.29	29	33
8	89.29	29	33
9	92.86	28	30
10	78.57	22	28
11	82.14	23	28
12	96.43	27	28
13	96.3	26	27
14	88.89	24	27
15	100	27	27
16	89.29	24	27

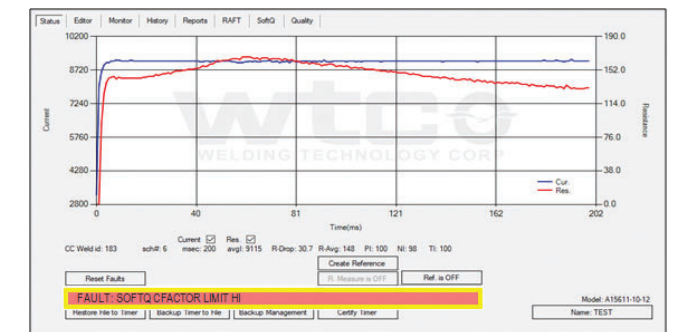

### MANUFACTURING INTELLIGENCE

Gain confidence in quality procedures driven by advanced analytics. The View-R monitors welding processes and provides alerts when irregularities or faults exist.

### VALUE-ADDED INTELLIGENCE

Evaluate weld data to identify the quality of the nugget, stability of the process, and health of the welder. View-R combines data science and advanced process analytics giving you the power to make informed process decisions.

### PREVENT, DETECT & RESPOND

Receive quality and process alerts as View-R software intelligence pilots your welding processes. Better engagement allows you to respond quickly and efficiently should the need arise.
